Laurie,

I have reviewed your letter. Thank you for your comment re: advanced exploration. You are correct. This error in the draft has been noted and will be amended in the final draft of the Terms of Reference and Workplan. I will distribute your correspondence and my response to all parties on the distribution list to ensure they are aware of this error as well.

agreed

Please confirm my understanding of the changes you are requesting. You would like:

- The opportunity to refine and re-submit material already provided as items A-K of the Developers Assessment Report;

*as we discussed - I believe for the scope of this project I can do this by expanding the submitted report and then re-submitting it as a complete replacement.
If this works for you I will begin work asap.*

- Complete the cumulative effects assessment independently; and

I have talked to EBA and others and feel that I can do such a report -given the scope of this project - in a much more economical time frame.

- Have a Public Hearing by the 3rd week of July.

If this can be set I would feel that the MVEIRB is being very helpful in that we would be shortening the time frame to a proportionate response to the scope of the project.

If there are further details of your request or you have additional comments on the Terms of Reference and Workplan, please submit them by June 30, 2003. Any changes to the schedule will be considered only after comments have been received from all persons or organizations listed on the distribution list.

The sooner we get some definitive dates etal then I can plan some of my summer vacation time! so any help on that would be appreciated

Regards,
Sherry

Did you get my letter sent yesterday. I have not had any acknowledgement and if I am going to proceed independently I want to get started right now - we wasted enough time.

Please let me know so if you haven't I will resend immediately

Thank you

Laurie Stephenson
