Subject: Parties with Standing for EAs in Drybones and Wool Bay Area

Lionel Marcinoski called to confirm the inclusion of INAC as a Directly Affected Party. I confirmed that, although not included on the sheet distributed to the parties in the facsimile and/or e-mail of July 18th, INAC had been granted standing in the Review Board's motion at the July 16, 2003 meeting. The Parties with Standing list has been updated to be consistent with the Review Board's motion.
