

## Mackenzie Valley Environmental Impact Review Board

May 5, 2005

To Distribution List – Canadian Zinc Corporation EA

**Re: Identification of Environmental Assessment Roles - Canadian Zinc Corporation  
Phase III Surface Drilling Exploration Program (EA0405-02)**

Dear interested parties

On April 22, 2005, the Mackenzie Valley Environmental Impact Review Board (MVEIRB) issued its Terms of Reference and Work Plan for the environmental assessment of Canadian Zinc Corporation's (CZN) Phase III Surface Drilling Exploration Program in the Prairie Creek Mine area. The Review Board expects that CZN will submit a Developer's Assessment Report (DAR) in response to the Terms of Reference. Once the DAR is received, the Review Board will upload the report to the MVEIRB web site and will notify the CZN distribution list.

Parties wanting to actively participate in this Environmental Assessment, must obtain status as a party to the proceedings. Please refer to the Review Board's Rules of Procedures for an explanation of the roles parties to an EA. The Rules of Procedure are available from our office or at [www.mveirb.nt.ca](http://www.mveirb.nt.ca).

If you would like to be considered as party, please fill out the attached form *Identification of Environmental Assessment Roles* and fax or e-mail it back to me on or before May 16, 2005. Canadian Zinc Corporation and the referring agency, the Mackenzie Valley Land and Water Board, are automatically granted directly affected party status and do not need to reply. Organizations or individuals who do not wish to formally participate in the environmental assessment but would like to receive further correspondence, should indicate so by requesting status as 'member of the public'.

If you have any questions regarding the process for obtaining status as a directly affected party or intervener, or about the environmental assessment process in general, please do not hesitate to contact me by email at [mhaefel@mveirb.nt.ca](mailto:mhaefel@mveirb.nt.ca) or by phone at (867) 766-7053.

Sincerely,

Martin Haefele  
Environmental Assessment Officer
