Re: SCOPING SESSIONS for the Environmental Assessment of Canadian Zinc Corporation's proposed Phase 3 Surface Drilling Exploration

The Mackenzie Valley Environmental Impact Review Board ("MVEIRB" or "Board") is preparing its Terms of Reference for the environmental assessment of Canadian Zinc Corporation's proposed *Phase 3 Surface Drilling Exploration Program* at its Prairie Creek Mine property. To assist in drafting the Terms of Reference, the MVEIRB staff are available for "Scoping Sessions" in a number of communities and in Yellowknife. The objectives of the Scoping Sessions are to:

- provide a venue for communities and other interested parties to identify the key issues that should be examined as part of the environmental assessment;
- encourage the participation of potentially-impacted communities in the environmental assessment by explaining the MVEIRB's mandate and process; and
- provide a forum for the Canadian Zinc Corporation to present its project description to potentially-impacted communities and other interested parties.

The following schedule is proposed for the Scoping Sessions:

- Wednesday, March 2, 2005 – YELLOWKNIFE (afternoon)
- Thursday, March 3, 2005 – FORT SIMPSON(afternoon)
- Friday, March 4, 2005 - NAHANNI BUTTE(morning); WRIGLEY (afternoon)

If you are interested in attending a scoping session in one of the communities, please let us know. The Board staff will not go to communities unless there is an interest expressed by the community.

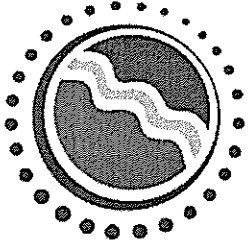

Please respond to Martin Haefele before 5:00 pm on February 18, 2005. Martin can be reached at: mhaefaele@mveirb.nt.ca, by phone at (867) 766-7053 or by facsimile at (867) 766-7074.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary Tapsell".

Mary Tapsell,
Manager, Environmental Assessment
