

Mackenzie Valley Environmental Impact Review Board

June 22, 2005

EA0506-003 Distribution List

Dear interested parties:

**Re: Public Hearing for Environmental Assessment of Ur Energy Uranium Exploration
(EA0506-003) Cancelled**

The developer, Ur Energy, has informed the MVEIRB today that the proposed uranium exploration program at the Screech Lake property in the upper Thelon watershed has been cancelled and that land use permit application MV2005C0007 will be withdrawn.

Consequently the MVEIRB is canceling the public hearing scheduled for June 29, 2005 in Lutsel K'e. The environmental assessment file will be closed as soon as confirmation of the application withdrawal has been received from the Mackenzie Valley Land and Water Board.

We would like to thank all participants for their cooperation and their contributions to this environmental assessment. If you have any questions, please do not hesitate to contact me at (867) 766-7053 or mhaefe@mvveirb.nt.ca.

Sincerely

A handwritten signature in black ink, appearing to read "Martin Haefe".

Martin Haefe
