Dear Ms and Mr. Olesen:

You do not require party status to be able to submit written statements or make presentations to the Board. The Board is by law required to consider any comments from the public. Parties to the environmental assessment can issue information request but may also be subjected to information requests. Also parties can present expert witnesses to the Board but are subject to cross examination by other parties if they make a presentation to the Board.

You have been added to the distribution list for this assessment and will be receiving all future correspondence on this file via e-mail (or notification of documents being available at our web site). Please submit your comments at your earliest convenience, we are looking forward to hearing from you.

regards  
Martin Haefe
