I have contacted both ENCORE AND Sidon and recommended that we initiate legal proceedings for the illegal and unconstitutional expropriation of the Canadian Shareholders legal and beneficial mining rights.

We are currently arranging meetings with our counsel in August and will be setting the monetary and punitive damages to be requested in the subsequent action.

Given that position – I do not see any potential value in attending the scheduled hearing dates you have proposed. Once we meet with our legal counsel we will be in a better position to assess whether we will attend any hearing on advice of counsel.

Seven years is just too long...
