Re: Updated September 12, 2011 Hearing Transcript

Due to technical difficulties on the first day of the two day hearing held in N'dilo on September 12 & 13th, the September 12th transcripts that were uploaded to the registry were missing some of the testimony from the Yellowknives Dene First Nation Elders. The Review Board has now corrected this omission.

Please be advised that the incomplete transcript has now been removed from the registry and a replaced by a complete transcript for September 12, 2011. Please update your records accordingly.
