Alan, that's pretty difficult at this point...I can probably offer more guidance on Greg's part tomorrow. He only came on board late last week and has been reviewing the registry files.

I think it fair to say that we'll be focusing on many of the same issues that were raised in both the EA report and in the hearing. Subsequent to that, there will be direct discussion on the impacts associated with developments *since* 2007, the reconsideration letter from the Minister, and consultation/accommodation (briefly). I can't foresee any new themes being introduced, but I'm not the decision maker here.
