Dear Mr. Edjericon:

**Re: EA0506-005 Reconsideration (CGV Drybones Bay)**

The Yellowknives Dene First Nation (YKDFN) has reviewed the Board's response of May 10<sup>th</sup>, 2011. In this one case with its unique facts, YKDFN would support the process as outlined so long as there is an oral hearing where the new Board members can hear evidence from the elders and members.

We look forward to reviewing a future workplan that lays out the approach that the Board wishes to take to finalize the reconsideration of this Environmental Assessment Report.

Sincerely,
