Re: EA0506-005 and EA0506-006

This letter is to inform the Mackenzie Valley Environmental Review Board (MVEIRB) of the indigenous North Slave Métis People's environmental concerns regarding the mineral exploration work proposed in the Drybones Bay and Defeat Lake area by Sidon and Consolidated Goldwin.

- Land Ownership disputed.
- Resource Depletion without compensation agreement.
- Resource Allocation preemptive of Land use planning and may cause Planning / Zoning conflicts
- Consultation is not adequate.
- Métis Heritage resources are at risk and not inventoried with our participation.
- Cumulative effects are not identified, quantified or assessed
- Human health hazards and public concerns.
- Interference with traditional land and water use and effects to Aboriginal life style:
- Socioeconomic effects not considered

I will put together the presentation part as soon as I can.

Thank you.

Sheryl Grieve  
Environment Manager
