Subject: RE: Postponement of EA Scoping

Hello Tawanis,

In place of a letter as mentioned below, please accept this email as our notice requesting a short postponement of activity on this EA. The company is currently completing substantive exploration and environmental baseline work on our project in the Yukon and as such has limited capacity to contribute to the EA process at this time. We will be more able to participate in the EA process later in the year as the exploration season wraps up. We will be in touch with you regarding possible available dates in September and October.

Regards,
Justin Himmelright

Subject: Postponement of EA Scoping

Hi Justin,

Unfortunately, I won't be able to talk to anyone in the community land corp. until the middle of this week as they're out of town. In the meantime, I think it would be helpful if you could write a letter asking us to postpone activities until September and stating why Selwyn requires the extra time. I can then put the letter on the record, and all parties to this EA will have access to it. I think this will help to maintain open communication between all parties.

Feel free to contact me with any questions or concerns,

Regards,

Tawanis Testart
