Subject: DEZE ENERGY

This is in support of the Lutsel k'e Dene First Nations opposition to the routing of the taltson energy transmission line across our sacred area on the East Arm of Great Slave Lake.

Transmission lines through the Desnethche area are not acceptable and an alternate routing must be found.

The sacredness of the Lockhart River (Desnethche) and the Tsankui Theda (Lady of the Falls) must remain untouchable for the generations to come.
