Subject: Power line at Fort Reliance

Dear Mr. Spencer

Being an avid fisherman from the United States, I have found beauty and excellent fishing at the Fort Reliance Lodge. I have been bringing fisherman to Fort Reliance for 38 years. The fishing has been excellent and I have repeat sportsmans who have been coming for years. They love the beauty and he fishing. There is just no place like it.

I realize that progress is important and we know it is inevitable to have change. However, I strongly feel the purposed powerline could be moved over to the north at least a 1/2 mile and leave the history and beauty of Fort Reliance as it is now. Please reconsider your plans and look at this alternative.

Thank you,

Jim G.Morris
