

Note to File

Friday, October 29, 2010

Indian and Northern Affairs Canada submitted its Developer's Assessment Report for the proposed Giant Mine Remediation Project on Wednesday October 27th, 2010. The Review Board is currently conducting a conformity check to ensure that all of the items in the Terms of Reference have been addressed. If the document is not found to be in conformity, a deficiency statement will be issued and INAC will submit a revised version.

Hard copies of the final Developer's Assessment Report document, with any necessary revisions, will be available from INAC following the conformity check. In addition to the copy of the Developer's Assessment Report posted on the Review Board website, the document will also be available on the Review Board FTP site. The figures have been reduced in size for the website. The figures posted on the FTP site will be in their original size and resolution.

The workplan for this environmental assessment will be revised to reflect the date that the Developer's Assessment Report was submitted. It will be posted on the Review Board website once it has been revised and approved.

Alan Ehrlich
Senior Environmental Assessment Officer
Mackenzie Valley Environmental Impact Review Board
