## To Distribution List

EA 0809-002

Canadian Zinc Corporation, Prairie Creek Mine

---

August 6, 2010

### **Re: Technical Meeting**

Canadian Zinc Corporation has indicated that they will respond to the information requests submitted by parties as well as those issued by the Review Board by September 3<sup>rd</sup>, 2010. The developer intends to provide responses to the information requests in a single document by this date.

As identified in the Work Plan, a Technical Meeting will follow the information request stage. The purpose of a Technical Meeting is for technical experts, advisors and other parties to have informal face-to-face discussions with the developer that focus on key issues. The meeting will be facilitated by Review Board staff.

In the interests of fairness, time is granted to parties to review the information request responses from the developer prior to preparation for the Technical Meeting.

The Technical Meeting will be held over the course of three days in Yellowknife on September 29 – October 1, 2010. An agenda with focused topics identified for specific days will be distributed to parties prior to the Technical Meeting.

If you have any questions, please contact me by email or phone.

Regards,

Chuck Hubert  
Environmental Assessment Officer
