Dear Mr. Edjericon

**Re: Information Request Responses for the NICO Project - EA0809-004
Developer's Assessment Report**

Fortune Minerals Limited ("Fortune") is pleased to submit its Information Requests (IR's) responses to the Mackenzie Valley Review Board. The IR's were in response to Fortune's submission of the NICO Cobalt-Gold-Bismuth-Copper Project Developer's Assessment Report (DAR) on May 20th, 2011.

At the request of several interested Parties during their review of the DAR, Fortune has included a number of past reports that were completed as part of the initial studies for the project. Please note that some aspects of these reports are now out of date as the design of the project has changed over time. The following page contains a list of the reports and appendices that are referenced in the IR response document.

Sincerely,

Fortune Minerals Limited

Rick Schryer, Ph.D.
Director of Regulatory and Environmental Affairs
