Dr. Rick Schryer
Director of Regulatory and Environmental Affairs
Fortune Minerals Limited
148 Fullarton Street, Suite 1600
London, Ontario N6A 5P3

Dear Dr. Schryer:

Re: EA0809-004 – NICO Project, Fortune Minerals: request for updated list of commitments and response to technical reports

Technical Reports for the NICO Project were submitted by parties between June 15 and June 19. A pre-hearing conference to discuss the hearing agenda and format of the community and technical hearings is scheduled for July 13.

In an effort to reduce the number of issues raised by parties in the technical reports and to focus discussion during the hearings, the Review Board requires the following material from Fortune Minerals Limited (Fortune) prior to the hearings:

1. An updated commitments table that includes mitigation measures and other commitments made during environmental assessment phases to date, including information request responses, technical meetings and meeting reports
2. A response document from Fortune to the recommendations listed by parties in the technical reports. The responses should outline which recommendations in the technical reports Fortune is prepared to accept and which recommendations require further discussion at the hearings

The Review Board believes that submission of the above material prior to the hearings will result in more focused discussion of key remaining issues. Please submit an updated commitments table and the response to Technical Reports document by July 6.

Sincerely,

Chuck Hubert
Senior EA Officer
Mackenzie Valley Review Board
