Re: Traditional Knowledge Study submission

To Parties:

The Tlicho Government confirmed during the August 30-31 public hearings in Behchoko, that they will submit a Traditional Knowledge Study to the Review Board on September 15. The Review Board understands that some of the material in the Traditional Knowledge Study is confidential.

The Review Board will accept the Traditional Knowledge Study under confidential cover and will only place the non-confidential portions of the Traditional Knowledge Study on the public registry.

Parties are asked to notify the Review Board by September 7 if they wish access to the full Traditional Knowledge Study report, including those portions that are confidential. Parties must provide rationale for the request and be willing to sign a confidentiality agreement.

If you have questions, please contact me by email or phone.
