**Re: Fortune Minerals Draft Workplan**

Dear Mr. Hubert:

The Tłıchò Government has reviewed the Workplan and requests an extra four months be added to the workplan.

The review time does not take into account the lengthy amount of work that will be required for Tłıchò Government review. As the primary affected group and land owners in the region, we need time for this review.

In addition, we note that the DAR is being released in the summer, which is the time of Assembly and Trails of the Ancestors. This is not a time for environmental assessment review for the Tłıchò Government, and thus we request some of the extra time be added right after the review of the DAR.

Masi,

Eddie Erasmus  
Lands Director
