RE: MV2011C0002.

To whom it may concern,

During our internal wildlife committee meeting, we discussed the Application for the Class "A" Land-Use Permit – Smitski #1 Mineral Claim, Diamond Drilling, Drybones Bay Area, Great Slave Lake, NT.

From the discussions we had and from the information we gathered regarding this project, we the Wildlife, Lands and Environmental Department of Lutsel K'e, NT will support the Yellowknives Dene in their decision to not support this project on the grounds that it's too close to the Great Slave Lake and its historic value towards the local Aboriginal populations.

If you need to contact the Wildlife Dept. for any questions and concerns the phone number is (867)370-3197.

Sincerely,

Tsatsiye Catholique, Director, Wildlife, Lands and Environment
Lutsel K'e Dene First Nation
