Re: Transfer of Evidence to the Public Registry - EA 1112-001

The Review Board has conducted a review of the registries of past Shoreline Zone EAs (EAO3-002, EAO3-003, EAO3-004, EAO3-006, EA0506-005, and EA0506-006) to identify relevant documents to transfer to the public registry for EA1112-001. Attached to this note to file is a list of documents which have been selected. Documents have been selected because of the relevance of the evidence to the scope of the Debogorski EA. Efforts have been made to identify key high-level documents to reduce the volume evidence to be reviewed by parties and the Board (e.g., party submissions and transcripts).

Any comments should be directed to Darha Phillipot, Environmental Assessment Officer at 867-766-7066.
