

## Note to File

EA1112-001

Debogorski, Diamond Exploration, Drybones Bay, NT

---

Re: Meeting Developer to discuss EA Start Up – April 21, 2011

This note to file provides a summary of the April 20<sup>th</sup> meeting between the Developer and Review Board Staff.

### Background

On April 14, 2011 the Mackenzie Valley Land and Water Board referred the land use permit application (MV2011C0002) for diamond exploration operation to the Review Board to conduct an environmental assessment.

On April 20<sup>th</sup> the Developer and staff from the Review Board met to discuss the proposed project and the Review Board's process. Alex Debogorski (the Developer), Vern Christensen, Martin Haefele, Darha Phillipot, and Nicole Spencer were in attendance.

### Meeting Summary

The developer provided an overview of the proposed project and land tenure. The developer intends to drill one hole initially followed by up to ten drill holes depending upon results. Drilling could occur in summer or winter. The group discussed the location of the proposed project relative to other projects that have undergone EA in the Drybones Bay area. The developer's mineral claim was staked in 2006. A certain amount of work must be done to maintain the claim.

Review Board Staff provided a general over view of Review Board's processes. Board staff

informed the Developer that the review Board will provide specific direction on the process for this EA, and he will be contacted regarding next steps.

#### Developer's Commitments

- To provide detailed information about the location of the proposed drill-hole.
- To provide information about archaeological studies done in the project area.
