**Re: Revised Project Description
Instruction to the Developer on the Terms of Reference and
Notice to Parties on next steps**

The Review Board received a revised project description for the Mackenzie Valley Highway Project on Sept 9, 2014. The revised project description is for an all-weather highway from Wrigley to Norman Wells.

The original project description was for an all-weather highway from Wrigley to the Dempster highway near Inuvik. Based on this application the Review Board conducted scoping sessions and issued a Terms of Reference (TOR). Because the project description has now changed the existing TOR may request information that is no longer applicable to the revised project description.

Instructions to the Developer

The Review Board requests that the Developer review the existing TOR for the Mackenzie Valley Highway project (PR#50) for conformity with the revised project description. A Word copy of the TOR will be provided and it is requested that any edits are made in track changes mode.

Please submit your edits on the TOR by **Sept 19, 2014**.

Notice to Parties

Once the Review Board receives the Developer's edits to the TOR they will be sent out for review by Parties.

The Review Board will consider and edits from Developer and comments from Parties when issuing the new Terms of Reference.
