

GENERAL INSTRUCTIONS FOR EXCEL TEMPLATE:

1. Do not leave blank rows above or between comments.
2. Do not modify or delete the instructions or the column headings (*i.e.* the grey areas).
3. Each comment must have an associated topic and recommendation.
4. All formatting (*i.e.* bullets) will be lost when this file is uploaded to the Online Comment Table.
5. If necessary, adjust the cell width and height in order to view all text.
6. Cutting and pasting comments from WORD documents cannot include hard returns (spaces between paragraphs).
7. If you would like to create paragraphs within a single cell, please use a proper carriage return (ALT & ENTER).

<u>TOPIC</u>	<u>COMMENT</u>	<u>RECOMMENDATION</u>
<i>Be as specific as you think is appropriate; for example a section or page of the document, a recommendation #, general comment, etc.</i>	<i>Comments should contain all the information needed for the proponent and the Board to understand the rationale for the accompanying recommendation.</i>	<i>Recommendations can be for the proponent or for the Board. Recommendations should be as specific as possible, relating the issues raised in the "comment" column to an action that you believe is necessary.</i>
AANDC -1 General Comment	DDEC has proposed this Draft Terms of Reference to the MVEIRB for consideration. At this time, AANDC will not provide detailed comments on DDEC's proposed Draft Terms of Reference. AANDC will monitor the MVEIRB's public issue scoping sessions and will provide feedback on the MVEIRB's official Draft Terms of Reference that includes consideration of the issues identified at those sessions.	NA
DFO-1 Page 5, Section 2.3 - Geographic Scope	Item #3 in the list of minimum geographic scope does not specifically include Lac du Sauvage proper or Duchess Lake. The area draining into Lac du Sauvage is included, and the area downstream, but de-watering will have impacts on the lake itself.	Include Lac du Sauvage proper.
DFO-2 Page 11, Section 3.2.4 - Description of the Existing Environment	Item #6 (the second of two items numbered 6) regarding aquatic habitat and aquatic organisms in the environmental assessment study area does not include waterbodies upstream of the site. With a large portion of Lac du Sauvage being de-watered, fish access to lakes connected to (<i>i.e.</i> upstream of) Lac du Sauvage may be lost.	Add "upstream" to the sentence "Include water bodies on the site, and downstream to the extent of predicted impacts."

<p>DFO-3 Page - 18 KLI-1 Impacts to water quality from project components</p>	<p>As there is water flow manipulation on this site, "upstream" should be included not just downstream as there may be upstream impacts.</p>	<p>Add "upstream" so the sentence says "For the locally impacted watershed and impacted upstream/downstream water bodies..."</p>
<p>DFO-4 Page 30 - Appendix B: Guidelines for Monitoring and Management Programs</p>	<p>Fisheries and Oceans Canada has developed a new tool, "Measures to Avoid Causing Harm to Fish and Fish Habitat", available online at: http://www.dfo-mpo.gc.ca/pnw-ppe/measures-mesures/index-eng.html.</p>	<p>Change heading of "Department of Fisheries and Oceans" to the proper format of "Fisheries and Oceans Canada". Add "Measures to Avoid Causing Harm to Fish and Fish Habitat" to the list of reference documents under Fisheries and Oceans Canada.</p>
<p>TC-1 3.3.2 Impacts on the human environment</p>	<p>Does not address Transport Canada's mandate</p>	<p>Describe any change in the environment which may in turn impact navigation on navigable waterways.</p>
<p>TC-2 3.3.2 Impacts on the human environment</p>	<p>Does not address Transport Canada's mandate</p>	<p>Describe the results of Aboriginal consultation specifically related to navigation on navigable waterways in the project area.</p>
