**Re: EA1314-01 – Comments on the inclusion of the document describing updated environmental variables related to the Jay project and the Bathurst herd to the public record**

Dominion Diamond Ekati Corporation and GNWT have commented on the request by IEMA for the inclusion of information describing the updated environmental variables related to the Jay project and the Bathurst herd. Dominion objects to the evidence being placed on the record<sup>1</sup>. The GNWT has no concerns<sup>2</sup>. No other parties commented on the inclusion of the information.

The Review Board will review the matter and present its ruling on the inclusion of the evidence by the commencement of the public hearing on Monday September 14<sup>th</sup>, 2015.
