Distribution List EA1314-01 Dominion Diamond Ekati Corp. Jay Project:

Re: Technical Meetings, Summary of Commitments and Homework – April 20th, 2015

During the April 20-24, 2015 Technical Meetings in Yellowknife, NT, Dominion Diamond Ekati Corporation (DDEC) committed to 1 Commitment and fulfilling 4 Homework items. In addition, the Government of the Northwest Territories (GNWT) ENR will fulfil 1 Homework item (No. 5), and Environment Canada (EC) will fulfill 1 Homework item (No.6).

Recognizing that parties require the information from these Commitments and Homework items in order to prepare technical reports and further information requests, all responses should be submitted to the Review Board’s public registry (if applicable).

The following table summarizes the Commitments and Homework items from April 20th, 2015:

Commitment/undertaking/homework	Subject	Homework/undertaking
Homework #1	Project Description and Alternatives – Dike design	DDEC is to provide a response regarding Brian Watts’ Dike design question (follow up to the recommendations in the pre-feasibility design report) by the end of the Technical Sessions
Homework #2	Project Description and Alternatives – Waste Rock Storage Area	DDEC is to provide the number of water bodies altered by Ekati to date by the end of the Technical Sessions
Commitment #1	Project Description and Alternatives – Dike design	DDEC commits to creating an Independent Dike Review Board/Panel prior to construction
Homework #3	Wildlife	DDEC is to provide a response before the end of the Technical Sessions regarding completing a WEMP and/or WWHMP for the Jay Project
Homework #4	Wildlife	DDEC is to prepare a preliminary list by the end of the Technical Sessions clarifying what plans will be prepared and during what stage

		(including dates or timelines, and relationship of plans to each other) for: Traffic Management Plan (Wildlife and Roads Mitigation Plan); Wildlife Management Plan; and Air Quality Monitoring/Management Plan
Homework #5	Wildlife – Birds	GNWT-ENR defers Review Board question regarding implications to falcon nesting from re-flooding of the Jay pit until tomorrow (April 21 st)
Homework #6	Wildlife – Birds	EC commits to submit the Short-eared Owl management plan (draft), and Rusty Blackbird SARA management plan (proposed) to the Public Registry
