Re: EA1314-01 – Jay Project, Summary table of IRs

A summary table of the Information Requests (IRs) received by February 23rd, 2015 for Dominion Diamond Ekati Corporation's (Dominion) proposed Jay project has been posted to the registry. The table is organized by topics, which correspond to Dominion's table of contents, and was further organized by subtopics where applicable. The table also indicates which IRs were directed to parties other than Dominion. If you would like an excel version of this table please contact Sachi De Souza.

The material posted to the ORS in support of the IRs will remain on the ORS until the review period has been finalized.
