Re: EA1314-01 – Jay Project, extension of due dates for technical reports from parties and responses from Dominion Diamond.

On July 28, the Review Board received written requests for an extension of the due date for parties' submission of technical reports from July 31 to August 3. The letters with associated rationale for the requested extension are found here: [NSMA request for extension to Aug 3](#) [LKDFN request for extension to Aug 3](#)

Dominion Diamond was consulted on the due date extension request and agrees with the request based on the following conditions set out by the Review Board:

- All parties are granted the same due date extension to August 3 in fairness
- Dominion receives the same due date extension for responses to August 17 in fairness
- All other Work Plan times remain the same

Due dates for technical reports are therefore extended as follows:

- August 3 at midnight – due date for submission of technical reports by parties
- August 17 at midnight – due date for responses to technical reports by Dominion Diamond
- No other dates in the July 22, 2015 Work Plan are changed.

Parties are encouraged to submit their technical reports prior to the due date of August 3.
