Re: draft items #26 and #44 from June 13-16 technical session draft undertaking list

On June 17 a list of draft undertakings from the June 13-16 technical session was posted to the public registry for review and comment by parties and the developer. [Technical Session draft undertakings June 17, 2016](#)

To clarify, draft items #26 and #44 in the list had not been reviewed or agreed to by the developer, Canadian Zinc Corp. Items #26 and #44 in the draft June 17 list are therefore not classified as undertakings until the developer commits to responding to them.

These 2 items in the draft undertaking list will be discussed between the Review Board and Canadian Zinc Corp. and a meeting report will be completed for the registry describing the outcomes for items #26 and #44.

As a reminder, parties and the developer are asked to review the draft undertakings list for content. Comments are due as follows:

- Monday June 20 – comments from parties
- Wednesday June 22 – comments from Canadian Zinc Corp.

If you have any questions please contact Chuck Hubert at chubert@reviewboard.ca 867-766-7052.
