Re: Notice of referral to environmental assessment, Chedabucto Mineral Exploration Project, Husky Oil Operations Limited, EA1415-02

Please be advised that on Feb 13, 2015 the Wek'èezhii Land and Water Board referred the Chedabucto Mineral Exploration Project to environmental assessment, pursuant to paragraph 125(1)(b) of the *Mackenzie Valley Resource Management Act* (MVRMA). The WLWB has determined that the proposed development is a cause of public concern.

In accordance with the MVRMA, the Mackenzie Valley Environmental Impact Review Board (Review Board) will conduct an environmental assessment of the Chedabucto Mineral Exploration Project. The Review Board has created a public registry for this file (EA1415-02), where all information will be held. The public registry is available online at www.reviewboard.ca/registry. Details of the assessment process are described in the *Review Board's Environmental Impact Assessment Guidelines*, available on our website.

The Review Board will determine the scope of the development and the scope of assessment in consultation with interested parties (including Husky Oil Operations Limited) and will provide you with further information as soon as possible.

Please do not hesitate to contact me at any time with questions regarding our process. I can be reached at (867) 766-7053, or stoogood@reviewboard.ca.
