**Re: Copies of the Studies Undertaken to Date - Referred to in the Project
Description: Proposed Development of Sable, Pigeon and Beartooth Kimberlite
Pipes**

Dear Ms. Klein:

Enclosed are copies of the baseline studies used in the development of the Project Description. We would ask that you treat the archaeological reports as confidential documents, as specific site locations can be identified from them.

Please do not hesitate to contact me if you should require any clarification or further references.

Sincerely yours,

Scott Williams
Manager, Environment and Resource Development
