**Attention: Michael Van Appelen
VP, Energy Adjudication**

**Re: Imperial Oil Resources N.W.T. Limited (“Imperial Oil”)
Norman Wells Operations
Renewal of Operations Authorization 1210-001**

Further to the Canada Energy Regulator's (“CER”) letter dated August 16, 2023, Imperial Oil has served the Notice and Statement of Concern Form (“NSOC”) provided by the CER on stakeholders in the area surrounding Norman Wells Operations. The NSOC was delivered to stakeholders via email on August 23, 2023. Please find attached as Schedule A, the list of stakeholders/individuals that were provided with the NSOC. This list is used by Imperial Oil regularly for stakeholder engagements related to Norman Wells Operations. A copy of the notice is attached as Schedule B.

In addition to providing the NSOC as described above, Imperial Oil has also posted it on the Norman Wells internet site which can be accessed at <https://www.imperialoil.ca/company/operations/norman-wells>.

Imperial Oil reserves the right to respond to any NSOCs that may be filed with the CER.

Please feel free to contact me if you have any questions.

Yours truly,

A handwritten signature in blue ink, appearing to read "Nathan Baines", with a long horizontal flourish extending to the right.

Nathan Baines

SCHEDULE B

Hello,

Since January 2023, Imperial has been communicating that it plans to continue operations at Norman Wells past 2025. Consistent with these communications, Imperial is now seeking a standard 10-year term extension for its operations authorization with the Canada Energy Regulator (CER). Aside from the proposed extension to the term of the operations authorization, Imperial is not requesting any changes to the operations authorization as no material alteration to Imperial's operations at Norman Wells is planned.

Imperial's communications began in 2023 at its Neighbour Week events and have subsequently been continued via a regulatory update and through ongoing meetings with community leaders, members and regulators. In addition, Imperial regularly provides information on Norman Wells operations and updates to stakeholders through community engagement activities. Imperial actively works to identify opportunities for socioeconomic benefits in connection with Norman Wells, such as business, training and employment for Sahtu beneficiaries.

Information regarding the proposed operations authorization application can be found on the CER's website at <https://apps.cer-rec.gc.ca/REGDOCS/Item/Filing/C25899>.

Attached is a "Notice and Statement of Concern" form that Imperial is required to provide as part of the CER process related to Imperial's request to extend the term of the operations authorization in order to continue operations at Norman Wells. Please take the time to review this form. Imperial continues to encourage stakeholders to contact Imperial directly with any concerns.

Please feel free to reach out with any questions you may have.

Jessica Snelgrove
