Dear Kim,

RE: Participant Funding for MVEIRB review of Pine Point Project, NT

I am writing to request that the CIRNAC funding for the Pine Point Project be modified to allow funds allocated to Participants for 2021-2022 be carried over as per the current project timeline below.

The Terms of Reference for the Project have necessitated the collection of additional baseline information data. Therefore, the Project is currently in the DAR Preparation Phase resulting in the deferment of the Analytical Phase and the Hearing Phase until the DAR is submitted, which is likely to be in mid-2024.

Yours sincerely,

A handwritten signature in black ink, appearing to read "A. Williams".

Andrew Williams

Environmental Manager  
Pine Point Mining Limited
