Notice of Proceeding Adjournment of environmental assessment

EA2223-01 – Imperial Norman Wells Operation – Waste Management Facility

On August 5, 2022, Imperial Oil Resource Ltd. (Imperial) submitted a Request for Ruling to the Mackenzie Valley Environmental Impact Review Board (Review Board) asking for an adjournment of the environmental assessment, and a two month extension of procedural deadlines for its proposed Waste Management Facility.¹

The Review Board grants the adjournment after carefully considering Imperial's rationale in its Request for Ruling. Accordingly, the environmental assessment is adjourned for two months as of today's date, and all existing procedural deadlines (Information request response deadlines) are extended by two months. Reasons for Decision for this Ruling will follow shortly.

The Review Board will issue an updated Notice of Proceeding prior to the re-commencement of scoping activities.

If you have any questions or need more information, please contact Sr. Environmental Assessment Officer Chuck Hubert, at 867-766-7052 chubert@reviewboard.ca, or Simon Toogood, Environmental Assessment Officer, at 867-766-7053 stoogood@reviewboard.ca.
