Re: Hay River Landfill Bioremediation

After reviewing the letters posted on the Review Board's website, we feel the Review Board is misrepresenting our October 8th letter to the Review Board. The Review Board is saying that Katloodeeche is asking for a referral to environmental assessment. That is incorrect. Our October 8th letter was a referral to environmental assessment. We are not asking the Review Board to refer it, as we have already made the referral.

Also, please clarify why you are soliciting answers to 3 irrelevant questions with your October 28th letter. Katloodeeche has already referred this project to EA so these questions are no longer relevant.

If the Review Board is refusing to accept this EA referral from the Katloodeeche First Nation, then please provide the Review Board's written reasons for its decision, as required by Section 121 of the *Mackenzie Valley Resource Management Act*.

Sincerely,

Kathleen Graham,
Katloodeeche Lands and Resource Management

C.c. Honourable Minister of Indian and Northern Affairs
Mackenzie Valley Land and Water Board
