Dear Mr. Govier:

RE: Land Use Permit Application S07C-004, Hunter Bay Resources

I understand that you advised one of our staff that the Sahtu Land and Water Board plans to issue the above permit on July 3, 2007. It may not be possible for you to issue the permit on July 3rd as we only received the associated preliminary screening report late this afternoon, and the Review Board will need some time to properly review it pursuant to Part 5 of the MVRMA.

In the meantime, it would be appreciated if you would send us a copy of all correspondence that the SLWB has received containing comments from government or other organizations pertaining to this file.

We will endeavor to do our review as soon as possible. Please hold the issuance of this permit until I can advise you further on our review of the preliminary screening report. If you have any questions about this request, please contact me directly at (867) 766-7055.

Yours sincerely,
