Mr. Martin Haefele,

I have only just received the IR's yesterday afternoon. The D.R.R.C. has established a working group to address Community concerns in regards to the exploration activity in the conservation zone of Edaiila (Caribou Point). On July 30, 31, 2007 Deline hosted a workshop on a strategy to protect the area known as Edaiila (Caribou Point). At this workshop the working group made it clear that any development activity in the area of the proposed Edaiila conservation zone be put to an environmental assessment with public reviews of the land use permit and water license .

Mr. Tom Nesbitt, Workshop Facilitator/ Chair for the Edaiila working group is in the process of finalizing the July 30,31, 2007 workshop. I have only just received a draft report of the workshop.

Regards
Edward Reeves
DRRC Manager
