Notice of Proceeding

Line 490 Replacement Project, Imperial Oil Resources NWT Ltd. (EA#2425-01)

RE: Imperial request to transfer materials relevant to the Line 490 Replacement Project from the regulatory proceedings to the public registry

Prior to its referral, this project was being reviewed by the Sahtu Land and Water Board in a preliminary screening,¹ and by the Canada Energy Regulator in a regulatory review which was in its final stages.² In this EA, the Review Board will consider and may rely on information from previous assessment activities related to the project.³

During the review of the Review Board's draft *Scope of Environmental Assessment* document Imperial requested documents be transferred from the Canada Energy Regulator to the Review Board's public registry. These documents relate to parties' information requests issued during the Canada Energy Regulator review of the Line 490 project application. The Review Board will transfer these documents to the public record for this environmental assessment.

The table below provides a list of the requested information and provides links to both the Review Board's public registry and the Canada Energy Regulator's registry to help parties access the documents.

For more information, please contact Senior Environmental Assessment Advisor, Simon Toogood at (867) 766-7053; stoogood@reviewboard.ca or Environmental Assessment Advisor, Malorey Nirlungayuk at (867) 766-7058; mnirlungayuk@reviewboard.ca.
